

When you have got everything and you're ready to rip. You need to go to windows media player.

So when you're in windows media player you need to go to Rip CD that is at the top of the screen.

Rip CD

When you click on Rip CD they will all start ripping like this. It will just start loading down the list.

If you want to stop at the top of the screen there is a stop rip button.

When its done it will just stop and it will look like it did at first.
